

# Derations Amaided

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful and sometimes

It is safe to say that a very large percentage of surgical operations for female troubles may be wholly avoided. This statement is amply proven by hundreds of letters constantly being received by the Lydia E. Pinkham Medicine Co., of Lynn, Mass., and the following letter from Mrs. Orville Rock of Paw Paw, Mich., relates her sad experience, which is only one of thousands that are constantly occurring. Had she taken Lydia E. Pinkham's Vegetable Compound at first, as she finally did, her dreadful hospital experience would have been avoided.

Here is her own statement: Paw Paw, Mich.: "Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for several months without much relief, and finally sent me to Ann Arbor for an operation. I was there four weeks, and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound, and advise my friends who have any female complaint to try it."-MRS. ORVILLE ROCK, Paw Paw, Mich.

If you are ill don't drag along until you are advised to have an operation, but remember that for thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills and has saved a vast army of women from surgical operations. No sick woman does justice to herself who will not at least give this famous medicine a trial.

A HANDSOME REWARD WILL BE CIVEN
to any person who will prove that any of our testimonial letters constantly being published in the daily newspapers are not genuine and truthful, or that any of these women were paid in any way to give their testimonials or that the letters were published without their permission or that all the original letters did not come to us entirely unsolicited. THE LYDIA E. PINKHAM MEDICINE CO., Lynn, Mass.
